

# Ordering a 31 or 36-String Hallel Harp

Updated: March 7, 2024

## Frequently asked questions...

### What comes with the 31 & 36-String Hallel?

36-Hallel (left) & 31-Hallel (right)  
Shown in walnut (semi-gloss finish)

The **31-Hallel Harp** starts at a Low C (see range chart at the end of this document) and goes to a high “e” and is 59” tall, 16” wide, and 29” deep, and weighs 19 lbs.

The **36-Hallel Harp** starts at a lower “A” note (see range chart below) and goes to a high “a” and is 60” tall, 16” wide, and 34” deep, and weighs 23 lbs.

These harps were specially designed for those who are watching their budget, but still want a full size harp with a full and rich sound, and still want it light weight enough that they can easily carry it around.

We give an extra set of just the nylon strings (does not include the special low wound strings) and a tuning wrench.

**Woods:** We typically make these harps in cherry, but we can also special order them in other woods such as: walnut, figured walnut, figured maple, Padauk or African Mahogany for an extra fee.

See order form for prices.

The word “Hallel” means “Praise” in Hebrew.

### Can I order a special hand-carving for the Hallel Harps?

Rose on 36-Hallel (walnut, high-gloss)

Dove on 36-Hallel (walnut, semi-gloss)

Hummingbird on 31-Hallel (cherry, high-gloss)

Hand carvings can be added to the harp for an extra fee (prices vary depending on if we are using an exiting pattern, or you want a different one). If you want to special order a carving, the price will be adjusted depending on the detail.

*What kind of levers are available for these harps?*

**Gold Truitt Levers**

**Silver Rees Levers**

**Note:** You can get a full set of levers or partial (such as C+F's or C,F+B)

**For prices see order form.**

**We can also put blue and red**

**Bands on the C+F's on the**

**gold Forte and silver Rees levers.**

**The Forte also provide red and blue levers for the C+F's upon request.**

**Shown Above: Gold Forte Levers**

**Silver Forte Levers are also available**

*What kind of finish do you use on these harps?*

**31-Hallel (cherry, high-gloss)**

**31-Hallel (walnut, semi-gloss)**

**36-Hallel (walnut, high-gloss)**

A semi-gloss finish is the standard, but we can do a high-gloss finish for an extra fee. Both the semi-gloss and high-gloss finish protect the harp, but the high gloss finish makes the harp look darker and is more shiny (so it's a matter of personal preference).

**See order form for prices.**

### ***Can I add a Mic Pick-up?***

Yes, for an extra fee we can add a mic pick-up which includes K&K Big-Twin transducers added to the inside of the sound board, and a metal jack on either the lower right or left side of the harp.

### ***Where can I get a padded case?***

You can purchase a special padded case directly from us, or order one from the three case making companies we have listed on our website. Our company name is on the pocket automatically, unless you specify a plain pocket (like the one pictured on left). **Ask about our 2-piece case for easy loading.**

### ***Where can I get extra strings for this harp?***

We will give you an extra set of just the regular nylon strings along with a tuning wrench. If you would like an extra set of the special low wound strings, they can be purchased directly from us.

### ***What type of electronic tuner do you recommend?***

ENO ET3000A Electronic Tuner

If you want to change the frequency from 440 to 432 or something different, then you'd want to get this model (shown left), so that you can change it with the arrow buttons.

Another option is to download the "Piano Tuner" app on your cell phone (which works well if you're in a quiet room by yourself).

### ***How do you receive payment?***

Since we are a small family business, we can only take credit cards (through PayPal) at this time for small harps (and the PayPal service fee gets added to your total). Our U.S. customers send us either a personal check or a bank money order made payable to Marini Made Harps. For international customers, after your order is confirmed we would email you an invoice through PayPal for small harps, or send our bank information for payment for larger harps...where you would wire your payment directly to our special bank account that we have set up for this (a small bankfee is added to your total). So, first you would email us your request with the order form filled out, and then we will email you back an invoice with everything listed and a final total. Once this is done, then we would proceed with your harp order. If the harp you want is available, then we would ship the harp to you once we receive payment. If we still need to make the harp, then we will notify you about 1 to 2 weeks before construction begins so that you can mail (or wire) us your payment.

Thank you for your interest in our Hallel Harp... we hope that we can serve you!

*The Marini Family*
